Projects

- Personal Portfolio:

A simple Personal Portfolio website for getting recognised and probably collab with interested individuals on some project/work purpose.It also comes with an option to download the resume.
Tech stack comprises of pure HTML, CSS and JavaScript.

Project repository: https://github.com/sumantrini/Portfolio_Website

- ATM Interface:

Java application for providing an ATM interface to users with which they can perform activities similar to the normal ATM like Opening a Bank Account, Deposit or Withdraw amount, MiniStatement, PIN change, etc.

Project repository: https://github.com/sumantrini/ATM_INTERFACE

- JobSniper:

A basic Web-Scraping project for scraping job positions available information and saving it as a '.txt' file which gets updated by itself after every 10 minutes.Users can also filter out job positions requiring zero, one or more skills they are not comfortable with.
Tech stack comprises of Python and BeautifulSoup library which is meant for scraping web in a much flexible manner.

Project repository: https://github.com/sumantrini/ATM_INTERFACE
